

PNEUMONIA AND ECZEMA

To Mr. George Kondic
General Manager
Zepter International N.Z. Ltd.
North Harbour Auckland

15/10/05

Dear Sir,

It is with much pleasure that I write to you to say how wonderful I find the Bioptron Light that an Agent of yours used on me. Her name is Corinne Cornwell.

I was recently in Waikato hospital with Pneumonia and when I came home, I was still very ill and felt I could not go on. I also suffer from Eczema and the extreme heat was affecting it very badly.

A neighbour told Corinne how sick I was so she came to me with her Bioptron Light.

From that day onward I started to become well again and Corinne used it on my chest for a week and cleared up the Pneumonia. Since then she has also used it on my Eczema again with great effect.

I cannot thank her enough for the wonderful use of the Bioptron Light and the fact that I now have a clearance from the Waikato Hospital as of the 10/2/05.

I only wish that more people knew about Bioptron Light.

Yours faithfully,

Mrs Joan Bloomfield
Hamilton
