

AMAZING RESULTS IN VARIOUS CONDITIONS

I have used the Bioptron Light Therapy in my clinic for six years. It has benefited my clinic, myself and my family in many ways. My patients cannot believe what amazing results they get after even just 1-4 treatments:

- Quicker healing time for patients in acute pain - anywhere in the body
- Healing of long-term problems and scar tissue
- Immediate decrease in inflammation
- Immediate pain relief in spinal injuries
- Almost instant results and pain relief in hands and feet
- Anti-ageing the natural way
- Great for managing long-term injuries and preventative measures for re- injury
- Dissolving of cysts

Along with helping patients in a variety of ways, and it is a passive income for me. The Bioptron is my personal "go to" when I injure myself or simply feel a bit under the weather and need a immune boost.

I highly recommend every person/practitioner investing in one, as I know I would not be without mine EVER!

Warm Regards,
Dr Theresa Dobson
