

# HOT WATER BURN ON THE LEG

Bev, age 50's

Hot water burn 3rd September 2003

First Bioptron treatment 15th September 2003 blue and white light

Same treatment every second day till 26th September 2003.

Two more sessions were done on 2nd and 4th October 2003

The skin back to "normal" and small red patches. (last photo not developed)

Bev did continue to have dressing changes daily while I was doing these treatments.

She is thrilled with the results
