

# OPERATION WOUND HEALED FAST

22 November 2000

To whom it may concern

At the end of winter last year I was looking through my clothes to see what would be okay to wear in the summer. I tried on a pair of shorts I had worn the previous summer, what a nasty shock I got when I saw all this horrible lumpy skin that looked like orange pee!. Next time I saw Barbara, at the Spine & Body Clinic, I asked her about the cellulite treatment with Bioptron she had advertised, Barbara had me convinced and within two treatment, I could already notice a difference. By the time I had finished my eight treatments all the cellulite had gone, my legs looked nice and firm and best of all my clothes were fitting a lot better. It was much easier than dieting or spending hours at the gym!
