

ULCER CLEARED UP

Healing an Ulcer

June 2001

Dear Faye,

Just a quick note to let you know my mother's ulcer cleared up within 3 months of treatment with the heat lamp. (Biopton Light) The Family are delighted. The doctor is impressed. We are sure the lamp did the trick in healing.

The lamp is now being used around family members for sore becks and aches and pains.

Thank you kindly for your initial treatments of my mother and advising us to purchase a lamp. (Biopton Light)

Kind regards

Isa Dyet
