

RECURRING ULCER ON THE ANKLE

Attn: Richard Challinor

Date: Wed, 9 Aug 2000

Subject: Delighted

I am really delighted to tell anyone and everyone about what Biopton Light has done for me.

For many years I suffered from a recurring ulcer on my ankle. This progressed to being worse and constant. I tried every remedy in and out of all the books. Finally, I submitted to a specialist surgeon who assured me he would rectify this problem. However \$3000 later the condition went from bad to much worse. I felt I was on the 'slippery slope' with so many activities being curtailed.

As a practising Natural Therapist, I thought I knew 'most of it' but decided to consult a Naturopath who suggested I give Biopton Light a 'go'. In fact, she lent me her Light for a few days and the condition improved just SO much that I decided to purchase a unit for myself. A decision I have never regretted. Not only has it healed my ulcer... and quickly at that... but also has assisted my general health and I have been able with the Light to help friends with problems from acne to conjunctivitis.

Definitely Biopton Light is one of my very best friends! In fact, I think every home should have one!
