

TENSION HEADACHE GONE

Hi George and Nena,

I purchased my THE Glasses, when they first came out a little more than a year ago. I started wearing them every day.

The first thing I noticed was that I started sleeping right through the night.

My eyes have watered since I can remember, 13 years old. When the cold wind blew, my eyes would pour. As a grown man, my vision has slowly deteriorated from the drop of water lying on my lower eyelid and causing blurred vision. Always have to have tissue paper handy for drying my eyes.

3 months of wearing The Glasses my eyes slowed down watering. I was surprised. I thought to myself I would see how the cold air in winter affected them when they would pour.

This winter passed and I can now confirm that the ONLY thing that changed in my life was wearing The Glasses, and my eyes no longer water.

Normal eyes. This is huge. No more tissues, no more burnt skin around my eyes from salt tears.

Woo hoo

Best regards
Konrad
