Flashing Light = Charging

Solid Light = Fully Charged

## VIBRATION PATTERNS

## HARE CARE™

### Cleaning, Storage & Safety

1. Always clean your Rabbit thoroughly before and after each use.
2. We recommend using a premium water-based lubricant when needed. Silicone-based lubricants are not recommended and can cause damage to the product. Never use hand cream, or massage oils as lubricants for your intimate areas.
3. To properly clean your rabbit, use a suitable silicone-compatible toy cleanser. If this is not available, wash the silicone area of your rabbit with luke-warm water and an antibacterial soap. Rinse clean and

pat dry using a lint-free cloth or towel. Do not use cleaners containing alcohol, petrol or acetone.

4. Avoid leaving your rabbit in direct sunlight and never expose it to extreme heat.

5. Waterproof function: The rabbit is not intended for extended or excessive submersion. After use in the bath or the shower, make sure to completely and thoroughly dry before storage. For best product performance, limit bathtub use to 15 minutes. Excessive or prolonged underwater exposure can lead to damage or failure of the product.

## SPECIFICATIONS

### Materials

Silicone

### Size

75 x 75 x 197 mm

### Weight

310 g

### Battery

Li-ion 500 mAh

### Charging

2 hours

### Use Time

1 hour

### Max Noise Level

<68 db

### Interface

10 vibration patterns

## DISPOSAL INFORMATION

Disposal of old electronic equipment (applicable in the EU and other European countries with separate waste collection systems):

The crossed-out dustbin symbol indicates that these items should not be treated as household waste, but rather brought to the appropriate collection point for recycling electrical and electronic equipment.

**RoHS**  
2002/95/EC
