

# LIGHTFOOT

2023  
Rosé

## The Wine

A crisp, dry-style Rosé. Beautiful pale pink and salmon hue. Aromatic with bright strawberry fruit and a crisp fresh finish. The summer wine, now a year-round favourite!

## Region Pyrenees & Gippsland.

This wine was made with shiraz fruit from both the Pyrenees region as well as our own Myrtle Point Vineyard in the coastal, Gippsland Lakes District.

## Winemaking

The Shiraz fruit for this wine was picked, then pressed and the juice run directly to tank for cold settling. Once settled, the clear juice was racked off the Lees and readied for fermentation. A cultivated yeast strain Rhone 4600 was used, which produces nice bright fruit characters and a dry complete fermentation. The temperature of the ferment was maintained at approximately 16 degrees C throughout. Following this, the wine was again racked, cold and heat stabilised, filtered and then bottled in late July 2022.
