## DHY12500SE 10kW/12.5kVA 230v Standby Silenced Diesel Generator

This 10kw/12.5kVA diesel standby generator is ideal for home or business standby use. The Hyundai twin cylinder air-cooled engine operates at a low noise level within the sound attenuating enclosure.

Mounted on 4 wheels, (2 steering with brake and 2 fixed) it is easily moved on a flat surface. The control panel features a digital panel to display volts, hours, frequency, 32A and 63amp sockets at 230v mains voltage, emergency stop button, overload breakers, ATS/2-wire socket and a 12v DC output.

The AVR alternator provides a smooth 230v mains power output and the high torque diesel engine ensures maximum economy and low emissions with minimum fluctuation in rpm as heavy loads are applied.

The long run 60 litre base mounted fuel tank will give up to 18 hours run time under ¼ load.

With key start, two wire start and ATS options, it is the ideal generator for the large home or small business standby in the event of a power failure.

- 10kw/12.5kVA maximum output
- Long run 60 Litre diesel tank
- ATS/2-wire/Key start
- Low noise 65 to 70db @ 7m
- AVR Alternator
- Portable- on wheels

## Specifications

MODEL	DHY12500SE
MAX OUTPUT	10kW / 12.5kVA
CONTINUOUS OUTPUT	9.0kW / 11.25kVA
ENGINE SPEED	3000rpm
ENGINE TYPE	Twin cylinder forced air-cooled
VOLTAGE	230v, 50hz single phase
SOCKETS	1 x 32A, 1 x 63A
FUEL TANK CAPACITY	60L
ATS COMPATIBLE	Yes
STARTING SYSTEM	12v key start, 2-wire start, ATS
WHEELS	4 wheels with brake
NOISE LEVEL	65 to 70db @ 7m
DIMENSIONS L x W x H	1175mm x 695mm x 1050mm
NET WEIGHT	295kg
ENGINE AIR INTAKE	1.2 Cubic Meters/Minute
AIR COOLING FLOW RATE	10.5 Cubic Meters/Minute
