Transforms Condo Into A Luxury Sanctuary

DENNESE GUADELOUPE ROJAS TRANSFORMS A DALLAS CONDO INTO A LUXURIOUS AND COZY SANCTUARY

January 1, 2021

Recognized as one of the Top 20 African American Interior Designers, Dennese Guadeloupe Rojas is the owner and Principal Designer at Interiors by Design (IBD) based in Silver Spring, Maryland. A highly creative and seasoned designer, Dennese has a diverse national client base with projects ranging from primary homes to vacation/second homes across the US and in the Caribbean.

## Dining Chairs: Sunpan

## Kitchen Counter Stools: Sunpan

Featured is the fourth project for one of Dennese's long-standing and loyal clients. This beautiful condo overlooking the Dallas skyline required innovative window treatments selected to soften the room while preserving the views of the magnificent cityscape. Natural light throughout the condo was an important factor in the color pallet selected for the walls and furnishings. Mindful of the lighting, Dennese met with her clients to carefully select furnishings, wall accents, and colors that would create impact and enhance the overall design. Furnishings and accessories were selected from the following vendors.

Creating luxurious surroundings that reflect each client's lifestyle is a cultivated talent that comes with experience and a true love of interior design. Technically minded, Dennese provides her clients renderings of their proposed designs that are nearly a photo depiction of the final product. Dennese's designs reflect the most current color and furnishing trends as well as the most updated techie gadgets like voice-activated faucets!
