## **Singapore Cycling Federation** **Event Sanctioning Policy Overview**

### **Background**

In tandem with the growth of the sport, the Singapore Cycling Federation recognizes the need for the development of a policy to govern the sanctioning of cycling events held in Singapore. With this in mind, (in September 2015) the SCF embarked on a process to develop the necessary templates, forms and outline the process for sanctioning. In summary, the basis for the development of an event sanctioning policy may include,

- ❖ Safety and well-being of participants
- ❖ Ensuring that minimum Safety standards are in place
- ❖ Legal protection for event organisers
- ❖ Protection for the sport and the SCF including availability of public liability insurance coverage
- ❖ Website (SCF) publication of events
- ❖ Accuracy in terms of data collection e.g. participation numbers
- ❖ Co-ordinated planning and structure of national cycling event calendar and timely onward reporting to UCI (including for securing of UCI ranking points, where applicable)
- ❖ Quality assurance of event organisation and delivery

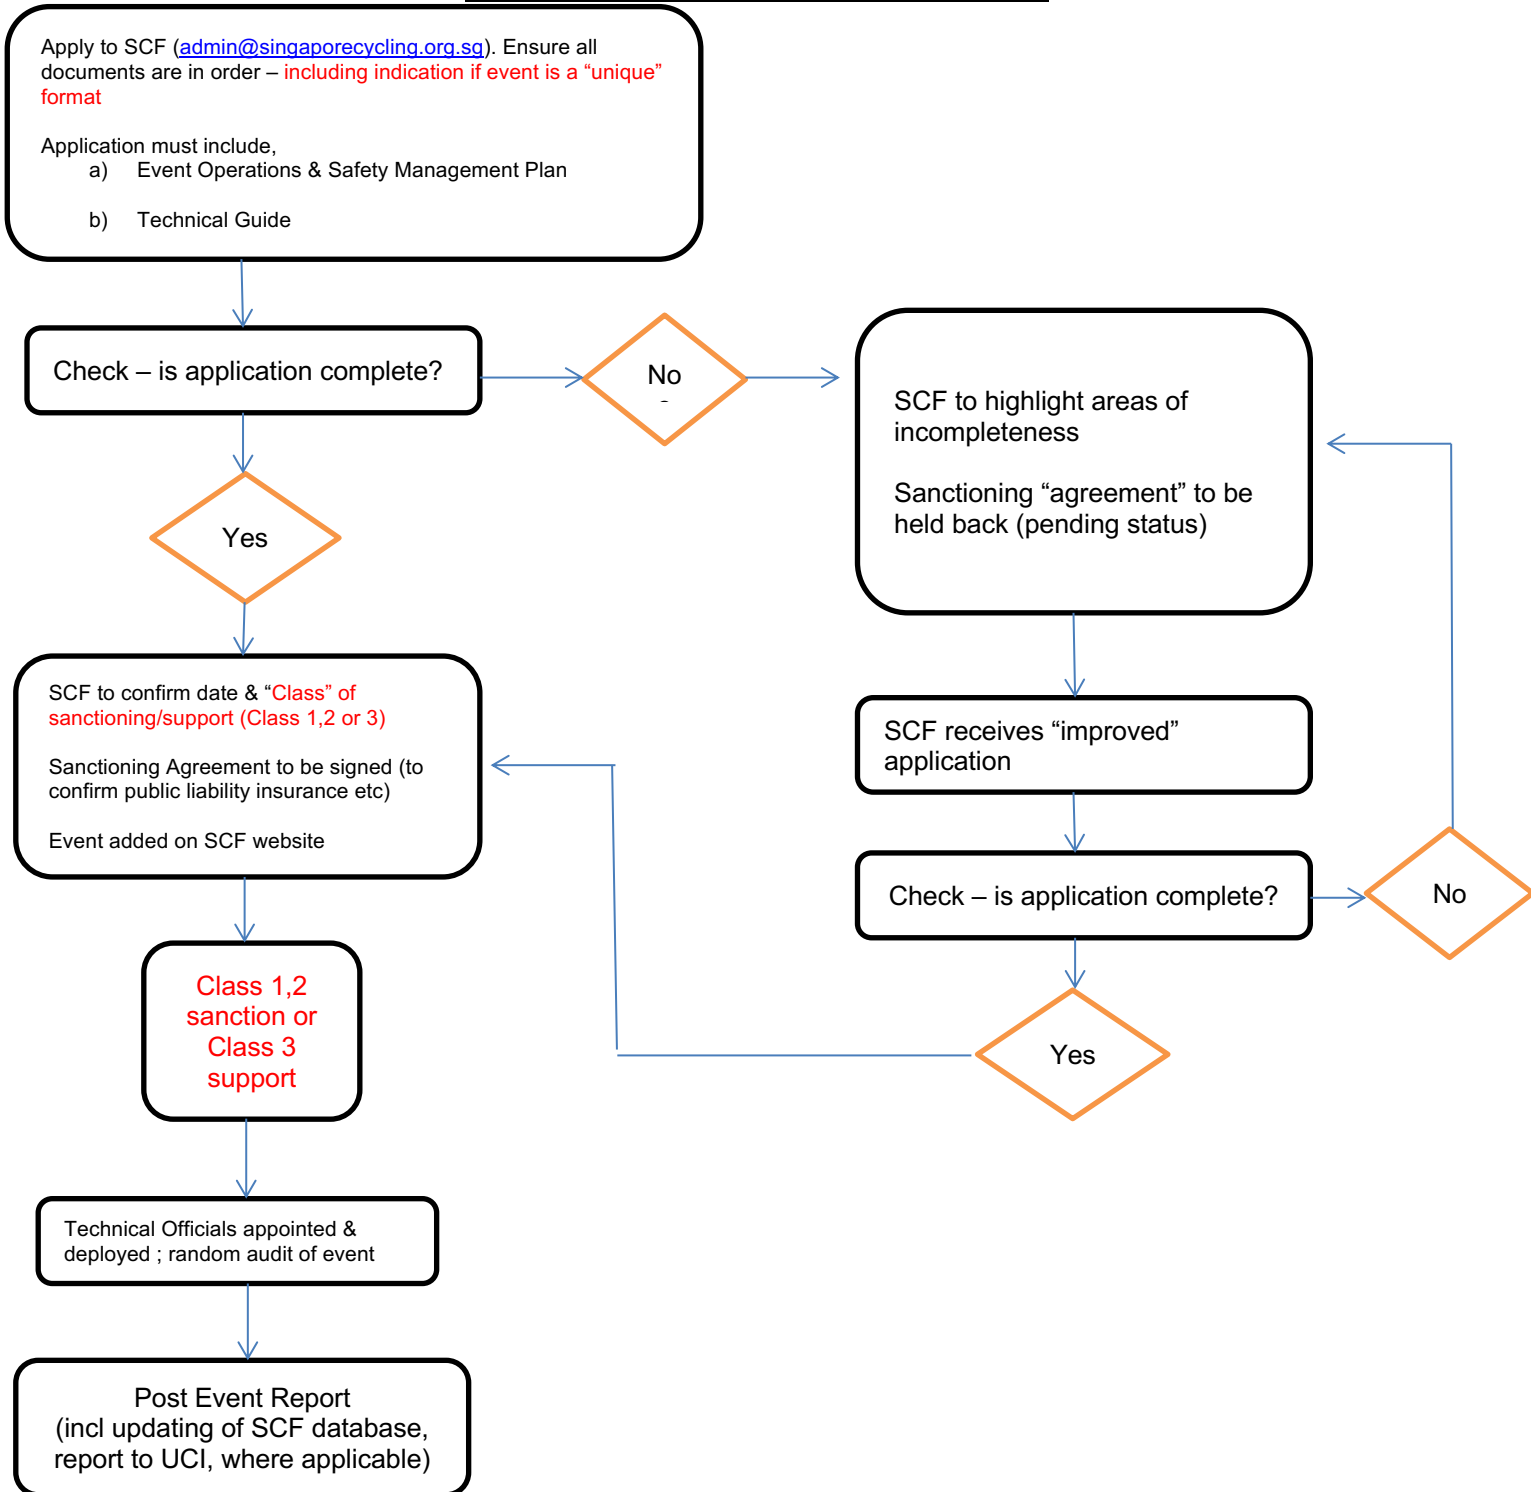

### **Public Liability Insurance**

A Public Liability policy can provide your club, community group or organisation with an indemnity against all sums which you become legally liable to compensate for damage to the public resulting from an occurrence which may arise from your activities. A legal liability can arise from your negligence, or the negligence of your members, including volunteers engaged on behalf of the club, who are working in a recognised role for the club or group.

Put simply, if you do or fail to do something, then where you are negligent (e.g. you have breached your duty of care) and someone's property is damaged as a result of this negligent act, the policy will defend you and pay compensation if you are legally liable subject to the specific terms and conditions of the policy. For example, a signage/banner/tent comes loose in windy conditions or due to a cycling mishap, perhaps because it was not properly secured, and damages a private or public property.

In addition to ensuring that event organisers are protected, the SCF has a duty to ensure that the sport is protected and its members are safe at all times. For this reason, the SCF has developed an event operations and safety template to be completed by the event organiser.

### **Other Mandatory Requirements**

#### Pre-Approval Event Meeting

Event Management Company (EMC) presents the race / series to the Commissaires panel to review Technical Guide and Race Details, Race format, and Risk Management Plan. The panel will then determine the optimal number of Commissaires to be appointed in consultation with the EMC - key requirements that ensure safety, professionalism and commercial success. Where necessary, a Technical Delegate (TD) will be appointed to assist the Event Organiser – for this the Event Organiser will bear the costs to be incurred for the TD's appointment.

### **Other Broad Parameters to determine Race/Event Classification:**

- ✓ Past experience / track record of the EMC
- ✓ Field Size / Number of Categories / Waves
- ✓ Race Rule Format (Boiler Plate or new race format/concept that requires further deliberation and assessment in consultation with the SCF's Technical and Commissaires' Commission)
- ✓ Race Route: Private or Public, Simple or Complex
- ✓ Approvals Required (SLA, Traffic Police, SPF, Marshall Support)
- ✓ Timing System which EMC will use (Active or Passive)
- ✓ Proposed date(s) – ensuring no clashes of existing approved events, wherever possible
- ✓ Risk Management – a standard template partially pre-propagated
