Cybier Rye Bier

		Big Americ	an Hops provide juicy fruity esters, s	et off by spicy rye	and toasty victory malt.	Original Gravity: 1.051	
	Extract Recipe					Final Gravity: 1.013	
						Color SRM : 11.90	
						Alcohol by Volume : 4.98	
Procedure : Please read all the instructions before you begin brewing, to ensure you have all the ingredients and fully understand the process.						IBU : 59.86	
Clean	It is important to	thoroughly clea	an and sanitize all of your brew	ing equipment.			
Steep	Begin by heating 2.5 gallons of water in your brew pot. Add speciality grains and tie a knot at one end of the "Grain Bag" leaving room for the grains to be loose in the bag. Place the Grain Bag in the water. Slowly raise the temperature to 150° to 160°F (max temp.). Steep your grains at this temperature for 20 minutes. After 20 minutes, remove the "Grain Bag" from the pot. Do not squeeze the bag, just let the liquid drain from the bag into the pot. The water is now "Wort" at this point.Grains :2 Ibs Rye Malt 0.5 Ibs Victory 1 Ibs White Wheat						
Fermentables & Start of Boil - Begin 60 minutes	Bring the "Wort" to a boil. It should be a rolling boil, but be careful to avoid a "Boil Over". Once you achieved a boil, remove the brew pot from the heat source.					Fermentables :	
of boiling	It is time to add the fermentables :					6 lbs Liquid Malt Extract Wheat	
	Stir the extracts, and fermentables into the wort until it has all dissolved. It is important to make sure none of the extracts or fermentables are sitting on the bottom of the brew pot, as it will scorch when returned to the heat source. Return the wort to a rolling boil and follow Hop Schedule :						
Hop & Additive Schedule		Ounces	Hop/Additives	Hop Addition	Boil Time (minutes)		
		1	10 HBU Pack	Boil/Bittering	30	7	
		1	oz Citra Hop Pellets	Flavor	15		
		1	oz Citra Hop Pellets	Aroma	5		
		4				-1
