

Product Description

The 4-foot Freestanding Slide is a great addition to any play space where additional sliding opportunities are desired. This slide features 3.5-inch powder-coated steel uprights, a heavy-duty rotomolded straight slide with a matching hood, and perforated, coated steel stairs. The barrier rails and transition deck encourage seated sliding.

Freestanding Slide

Features

- Provides opportunities to develop object recognition, fine motor skills, expressive/receptive language skills, and gross motor skills
- Allows kids to practice dramatic play and use their imagination
