

Follow the steps  
to create your own  
a-draw-able town

### 1. EVERY BUDDY'S DIFFERENT

Use the pens to cute-ify your Buddy any way you want. Remember to colour in your Buddy's eyes too! Leave them to dry for three minutes before you play together.

### 2. COLOUR, PLAY, WASH AWAY

Changed your mind? Don't worry! Buddies love baths. Ask a grown-up to help you wash your Buddy in lukewarm water. Avoid soap and do not scrub or sponge. Wait until your Buddy is completely dry before you cute-ify again.

### 3. THINK OUTSIDE THE BOX

The box your Buddies came in will make a super-cute something to go in your town.

### 4. BETTER TOGETHER

Buddies hold hands with their Little Besties to create friendship chains.

### TOP TIP!

Buddies are best cleaned within 48 hours. If ink remains, brush gently with a clean, soft toothbrush and a small amount of toothpaste to remove any stains.
