★ **MAGIC** ★★ **SPELLBINDING** ★★★ **WOW!**

Part of the magic of nano tape is that it's super, super sticky! To stop your tape from sticking to your tabletop, try laying down a sheet of baking paper or some of the discarded backing film before you get crafty!

Nano magic doesn't last for ever. Have fun making lots of cute crafts and enjoy them while they last. Take lots of photos of your amazing creations to share with your friends. You could even try making your own tutorial videos. It's a viral trend, after all!

Remember, scissors are sharp! Always ask an adult to help you cut your tape. The nano magic might rub off on them, too!

Press out your potion bottle template, or copy the shape onto a piece of card. Use your felt-tip pens or colouring pencils to shade it in and add extra details.

Place a pinch of blue cotton wool over the bottle, then add your magic charm.

Cover both sides of the bottle in nano tape, and then cut it out.

Peel the backing film from the front of the bottle, and then add more cotton wool to make your magic potion look smoky and mysterious!

EVEN MORE MAGIC...

Make lots of magic potions using different colour pens and cotton wool. Why not try adding sequins or other craft materials to make your own lucky spells!
