NANO MAGIC!

MAKE YOUR OWN...

## Emoji Cube

FOLLOW THE STEPS INSIDE TO MAKE YOUR VERY OWN EMOJI CUBES.

You will need these items from your kit:

- Yellow nano tape
- Yellow slime
- Felt-tip pen

( You will also need: • Scissors **ASK AN ADULT TO HELP WITH THESE!** )

## Tips and Nano Magic Tricks

Scan the QR code on the front of this leaflet for video tutorials, templates, step-by-step instructions and loads of inspiration for fun crafts you could make. You'll be a nano wizard in no time!

Like all crafts, nano tape takes practise. Our magic creations have star ratings next to each tutorial, so you can find one that's the right level for you. Start with 'magic', then progress to more complex tutorials as your confidence grows.

★ **MAGIC**    ★★ **SPELLBINDING**    ★★★ **WOW!**

Part of the magic of nano tape is that it's super, super sticky! To stop your tape from sticking to your table top, try laying down a sheet of baking paper or some of the discarded backing film before you get crafty!

Nano magic doesn't last for ever. Have fun making lots of cute crafts and enjoy them while they last. Take lots of photos of your amazing creations to share with your friends. You could even try making your own tutorial videos. It's a viral trend, after all!

Remember, scissors are sharp! Always ask an adult to help you cut your tape. The nano magic might rub off on them, too!

1 Cut five lengths of nano tape - around 5 cm is perfect.

2 Take the first square and lay it sticky-side-up on the table. This will form the base of your cube. Carefully press another square onto one side of the base with the sticky side facing inwards. Add another square beside it, carefully pressing the edges together.

3 Add the last two squares, carefully pressing the edges to seal. Remember to keep the sticky sides of the tape facing inwards and carefully press at the joins to keep them secure.

4 Now you have an open cube, it's time to fill it with slime.

5 Cut the lid for your cube while the tape is still on the roll. Lay it over the open side with the sticky side facing downwards. Gently press the edges to seal, and then trim to size.

6 Peel the backing film from the front of your cube and use your felt-tip to draw a fun face - which emoji will you choose?

## EVEN MORE MAGIC...

- ★ Keep the backing film on the outside of your cube to help it keep its shape. Why not make lots of emoji cubes to share with your friends?
