

Make Your Own Bookmarks

Customise your own unique bookmark using your fave old book.

You will need:

- A book you no longer want
- Scissors
- [Optional] Glue, stickers, card

Read me!

Always ask a grown-up for permission if you're using scissors.

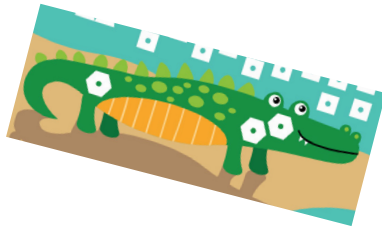

1

If the book you're using has quite a sturdy cover or pages, simply find a part that you think will make a nice bookmark and use the scissors to cut out a rectangular shape that's about 15 cm long.

2

If the pages aren't that sturdy, or you don't like the design, cut out some card or even a part of the cover, find some cool images in the book and get cutting and sticking! You could add your own doodles, stickers or anything you like.

3

The bookmark doesn't even have to be rectangular - make it in the shape of an ice cream, a princess, whatever you want!
