

Make Your Own Great Gift Tags

Create some cool gift tags that'll add some style to your presents.

You will need:

- A book you no longer want
- Scissors
- String
- A hole punch

Read me!

Always ask a grown-up for permission if you're using scissors or a hole punch.

1

Cut out a part of the book that will make a nice scene for a gift tag. Covers work brilliantly as they often have blank backs so you can easily add writing, but any page will do.

2

Write your message on the back, then either use tape to stick it to the present as is, or ask a grown-up to use a hole punch and loop some string through the hole to create a more fancy gift tag - either way works perfectly well!
