

# Howdy, Partner

Join the avails Partner Program to provide your clients with a social video and photo content creation solution that's easy, cost-effective and professional.

Got clients that need some on-the-ground content created?

We get it, content creation in the social media age is immediate, raw and reactive - and that takes up a lot of resources. That's why we created avails.

To help you leverage our services for your clients and give them a more complete offering, we created our Partner Program so you can keep your clients' needs covered without having to expand your own services beyond your means.

## WHO ARE WE?

Not every small business can afford to spend tens of thousands of dollars on professional studio shoots with a set and crew - let alone enough of those shoots to keep up with the rapid pace of social media.

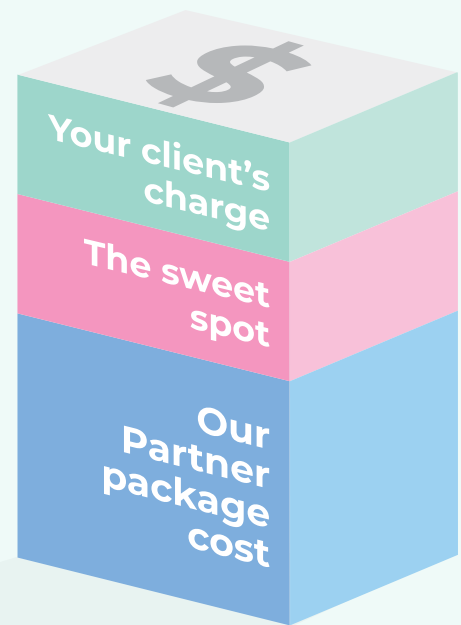

We solve the problem by sending out a Squad of content creation experts who can set up on-site, shoot, pack down, and be on their way within a couple of hours. The best part? Edited content ready for posting and returned within 48 hours.

Short, sharp and quick - just the way Insta Reels, Tik Toks, Stories and social posts should be.
