STYLE

Bring contemporary style and flair to your pool with this unique pool seat. This marvelous molded seat makes an artful addition to any pool.

Where Design
Meets Water

This revolutionary and innovative grip is 'design protected' and is molded into multiple shapes so that the

pool seat can easily fit on most above ground swimming pools and wide steel frame pool borders.

DESIGN

For in-ground pools we designed the AQWAGRIP so the pool seat has a firm grip on flat pool borders. The AQWAGRIP is molded to fit the pool seat like a glove and holds the pool seat into place.

The AQWAGRIP is attached to the pool side with a special designed 'water proof' adhesive paste strip. The shape of the grip has soft round edges and can be removed when necessary.

ADJUSTABLE FEET

One of the special and unique features are the two adjustable stainless steel feet on the back side of the seat, which help to ensure the right position for maximum comfort and relaxation.

COMFORT

Discover the perfect companion for your pool today and make your summer unforgettable. With this pool seat, relaxation takes on a new dimension.

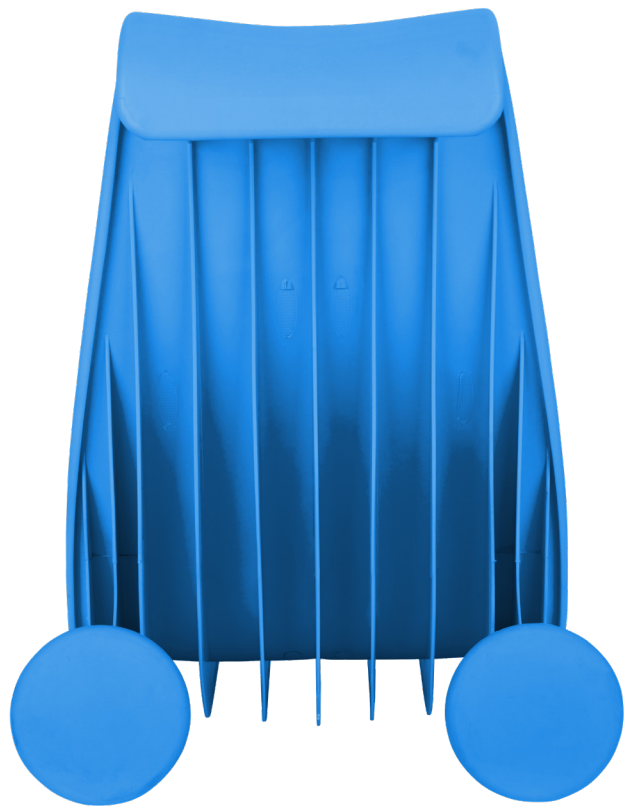

The seating area of the AQWASEAT pool lounge can be adjusted to everyone's needs thanks to the infinitely adjustable bumpers. These are made of a soft type of rubber that protect your pool liner against damage.

The AQWASEAT Pool Lounge is inspired by the natural flow of water and all sea life. It has a contemporary organic form and shape which is designed with great attention to details. The soft rounded shape does not only reflect the natural flow of nature but also adds to the inexpressible comfort of the seat.
