INSTALLATION GUIDELINE

⚠ WARNING: SAFETY GLASSES MUST BE USED WHEN INSTALLING THIS PRODUCT.

LED HiLitz is an auxiliary light designed to provide exterior auxiliary and accent lighting while driving off road. LED HiLitz has a distinct amperage draw below in the installation instructions. If you are not confident in your ability to install the DashLitz please consult a licensed mechanic.

LED HiLitz has specific voltage and amperage ratings for power input and amperage draw. ENSURE THESE RATINGS ARE FOLLOWED. The LED HiLitz must be installed in a properly functioning vehicle electrical system. Do not install this product in a malfunctioning vehicle electrical system.

Select a mounting location that will not obstruct the operation of the driver

Clean mounting surfaces before installing units using water or a 50/50 mix of water and rubbing alcohol.

Before permanently mounting to vehicle, test fit to ensure wiring is long enough to be safely installed and does not obstruct any operating functions of the vehicle. These lights should not be installed where their operation hinders the visibility of the driver or other drivers

⚠ WARNING: DURING OPERATION LIGHTING UNITS CAN GET HOT - DO NOT TOUCH WHILE OPERATIONAL OR WITHIN 30 MINUTES OF POWERING DOWN.

Before disconnecting battery terminals, please check your owner's manual for proper procedure.
