INSTALLATION GUIDELINE

WARNING: SAFETY GLASSES MUST BE USED WHEN INSTALLING THIS PRODUCT.

48 Floglo Command Int is an interior auxiliary light designed to provide auxiliary or mood lighting while driving off road or while the vehicle is parked and stationary. 48 Floglo Command Int has a distinct amperage draw noted in the installation instructions. If you are not confident in your ability to install the 48 Floglo Command Int please consult a licensed mechanic.

48 Floglo Command Int has specific voltage and amperage ratings for power input and amperage draw.

ENSURE THESE RATINGS ARE FOLLOWED. The 48 Floglo Command Int must be installed in a properly functioning electrical system. Do not install this product in a malfunctioning electrical system.

Select a mounting location that will not obstruct the operation of instruments or any vehicle functions

Clean mounting surfaces with isopropyl alcohol (70%) and wait for the surface to dry before proceeding.

Before permanently mounting to vehicle, test fit to ensure wiring is long enough to be safely installed and does not obstruct any operating functions of the vehicle. These lights should not be installed where their operation hinders the visibility of the driver or other drivers

WARNING: DURING OPERATION LIGHTING UNITS CAN GET HOT - DO NOT TOUCH WHILE OPERATIONAL OR WITHIN 30 MINUTES OF POWERING DOWN

Before disconnecting battery terminals, please check your owner's manual for proper procedure

Federal Communications Commission (FCC) Interference Statement

FCC ID: 2AMN5-77980

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

There is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.
