### INSTALLATION GUIDELINE

LEDBULBZ 31-36mm - Multicolor is a direct replacement LED bulb designed to, when replacing a bulb of similar size and

base (please reference fitment chart on package), provide interior auxiliary and accent lighting while driving off road. LEDBULBZ 31-36mm - Multicolor has a spring-loaded mechanism that compresses from 36mm down to 31mm to fit the two different bases -DO NOT bend, compress, or alter the adjustment mechanism beyond it's capacity to fit a base or replace a bulb not listed on the package. LEDBULBZ 31-36mm - Multicolor has a distinct amperage draw below in the installation instructions. If you are not confident in your ability to install the LEDBULBZ 31-36mm - Multicolor please consult a licensed mechanic.

LEDBULBZ 31-36mm - Multicolor has specific voltage and amperage ratings for power input and amperage draw. ENSURE THESE RATINGS ARE FOLLOWED. The LEDBULBZ 31-36mm - Multicolor must be installed in a properly functioning

vehicle electrical system. Do not install this product in a malfunctioning vehicle electrical system.

**WARNING: DURING OPERATION LIGHTING UNITS CAN GET HOT - DO NOT TOUCH WHILE OPERATIONAL OR WITHIN 30 MINUTES OF POWERING DOWN.**

Before disconnecting battery terminals, please check your owner's manual for proper procedure.

### Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

There is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the

receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or

operating in conjunction with any other antenna or transmitter.
