Find the center of your long piece of cord and place it behind your short piece a few inches from the top.

paracordgalaxy.com

**Step 2:** Bring the left side behind the center cord and up through the loop created by the right side. Pull tight.

**Step 1:** Bring the right side over the center cord and under the left side.

**Step 3:** Tie a knot as you did at the beginning by bringing the right side over the center cords and under the left side.

**Step 5:** Now bring the left side over the center cords and under the right.

Repeat steps 3 through 6 about twice more then trim and melt the tying ends. This will make your bracelet adjustable. Tie an overhand knot in each bracelet end to prevent it from accidentally slipping through.
