

ML-HB-4-T8/HB-6-T8

LED HIGH BAY

DESCRIPTION

Our LED T8 Linear Highbay is contractor's number one choice. With the choice of 4 T8s or 6 T8s tubes, these 4ft linear highbays provide easy installation for contractors. Constructed of powder painted cold-rolled steel, these housing highbays are compatible with T8 tube configurations. This slim profile can be chain mounted or pendant mounted onto the surface.

Specification Features

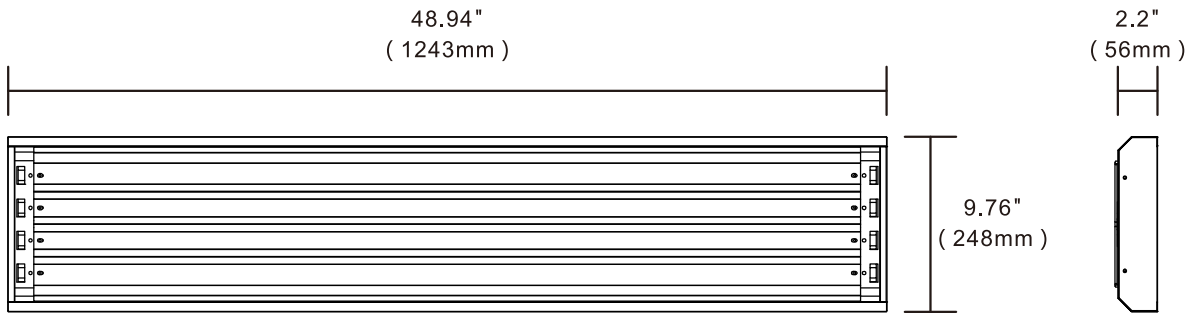

- Constructed of high quality carbon cold rolled steel
- Powder painted in white
- Suitable for T8 tube configurations
- Can be installed in chain mounted or pendant mounted
- Available in 4 foot lengths
- UL Listed
