

## ML-WL-4-T8

## LED STRIP LIGHTING

### DESCRIPTION

Our LED T8 Housing Wrap Light is contractor's number one choice. With the choice of 4 foot length, contractors can easily install T8 tubes into the housing. Constructed of powder painted cold-rolled steel, these housing wraps are compatible with T8 tube configurations. This slim profile can be ceiling, surface, or pendant mounted and allow for easy T8 replacement and maintenance.

### Specification Features

- Constructed of high quality carbon cold rolled steel
- Powder painted in white
- Suitable for T8 tube configurations
- Can be installed in ceiling, surface, or pendant mounted
- Available in 4 foot
- UL Listed
