

CUSTOMER LAUNCH INFORMATION

SWEDBOARD[®] FIBRE FR

PRODUCT INFORMATION

SWEDBOARD[®] Fibre FR is a paper-based rigid board that offers a versatile alternative for demanding POS/POP and exhibition applications where a fire classification is requested (fire behaviour according to EN 13501-1: B-s1,d0); the Euroclass B level is the highest possible for combustible materials. The engineered dust free core gives the material excellent strength and stability yet with light weight. All materials are FSC[®] certified (FSC[®] C147499).

Applications:

- Displays (POS/POP)
- Signage | Lettering
- Shop design | Shop window decoration
- Interior design | Furniture
- Partitions | Cladding
- Exhibition design and construction
- Model making
- Short term promotional campaigns

Processing:

- Digital printing | Screen printing
- Laminating
- Painting | Spray painting | Lacquering
- Cutting | Die cutting | Plotting
- Gluing | Drilling | Screwing
- Folding (V-groove)
