Satin

Product Information

General

Satin PVC is a clear 'lusted' PVC overlaminating film which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The satin smooth finish gives a lusted clear finish and therefore this product is commonly used for general paper and filmic poster graphic overlamination where a smooth, clear finish is required.

Product is suitable for

- Over-lamination of all ink types including UV inks.
- General paper and filmic poster graphic overlamination

Product Benefits are

- Satin smooth finish
- Permanent acrylic adhesive

Standard Sizes

Width(s): 1040, 1300, 1370, 1530 (mm)
Length(s): 100 (m)

Product Features and Performance Data

Face Material	Satin clear PVC. Monomerically plastisized	80 +/- 5
Adhesive	Permanent Adhesive	30 +/- 2
Liner	White, Kraft, PE coated. 70 gsm, standard release Siliconised one side.	80 +/- 8
