

Men's Swimshorts

HOW TO MEASURE:

Waist:

Measure around the middle of your natural waistline, this should be approximately around where your belly button sits or just above.

Hips:

Measure around the widest part of your hips, making sure the tape measure is sitting straight around the largest part of your bum.

Hot Tips

- The measuring tape should fit closely around the body without squeezing in any way.
- If your waist and hip measurements fall in different sizes, we recommend following the size of your waist measurement.

• cm

Size	Waist	Hips
XS	64	70-80
S	68	80-90
M	72	90-100
L	76	100-110
XL	80	110-120
