

PTERA BRACELET SIZE GUIDE

STEP 1. Print this guide out, making sure to set scaling to "one" on the printing dialogue box.

STEP 2. Once printed, measure the line below to ensure all measurements are accurate. The line should measure 5cm.

MEASURING YOUR WRIST. Use this guide to determine your wrist size by measuring your wrist using the tape measure on the right.

STEP 1. Cut out the measuring strip below and the slit used to identify your size.

STEP 2. Wrap the measuring strip around your wrist, sliding the smaller end into the slit until the strip is tight and snug around your wrist.

STEP 3. Read your size off the measuring strip.

FINDING YOUR SIZE. Use the below guide to determine your bracelet size using the measurement you collected in the step above. Note that our watches are sized using your raw measurement, not the below sizes.

SIZE	DIAMETER (CM)	CIRCUMFERENCE (CM)
PETITE	4.8	15
STANDARD	5.4	17
LARGE	6.0	19
