

# Maruyoshi Short Handle Grubber user guide...

The Maruyoshi Grubber is a strong short handled tool that's great for ground work, and available in both Right and Left hand options. It is a tool designed for digging and rummaging in the garden and is also fantastic as a weeder.

The Maruyoshi Grubbers are incredibly light and made from high quality carbon steel, and the blade is tempered to give long lasting durability.

**Maintenance:**

Although these tools are made from high quality steel, they can still rust if not properly maintained. We recommend you clean the blades after use and then store away in a moisture-free place.
