MOMMENPOP

Made in Napa with All-Natural Ingredients:
Fresh Organic Citrus and California Wine

ABOUT US

Founded in 2017 by celebrated natural winemaker Samantha Sheehan, she created Mommenpop as an all-natural, low-sugar alternative to other mainstream aperitifs.

LOCAL, ORGANIC INGREDIENTS

Our facility is certified organic and we use local, organically-grown ingredients. Each year, we source nearly 15,000 pounds of just-picked citrus from small farms in California - this hand-chopped fruit gives Mommenpop its signature juicy flavor.

NO ADDED PRESERVATIVES, DYES, OR SUGAR

Most other market-standard brands add artificial color to make their products appeal to consumers, preservatives so that they keep forever, and sugar to enhance taste. Not Mommenpop! Our product is made with no added sugar and only organically-farmed ingredients - the subtle sweetness and vibrant color comes only from the fruit.

WHAT IT TASTES LIKE

Each Mommenpop flavor is like California sunshine in a bottle - bright, tangy, wildly refreshing, and brimming with fresh citrus. We use the whole citrus, peels and all, to capture to the amazing aromas of the skin and the juiciness of the flesh. "A pop of sun-soaked California citrus," says Wine Enthusiast.

HOW TO USE IT

Mommenpop is low-ABV and easy to use. "A sunny, juicy bev begging to be spritzed," says Bon Appétit. Make it the base of your next spritz for a lighter, brighter, better-for-you sipper. Cheers!

BLOOD ORANGE

Vibrant & juicy

Made from a base of organically grown Barbera rosé grapes, Mommenpop Blood Orange is a crowd favorite. With close to 4,000 pounds of fresh Tarocco and Sanguinelli blood oranges, this flavor is literally bursting with juicy citrus. The subtle hints of cubeb pepper, hibiscus and vanilla bean, make for a complex and perfectly balanced aperitif. Enjoy this over ice in a Spritz with equal parts Mommenpop and sparkling rosé.

*"The perfect gift, and
universally delicious."
— PUNCH*

RUBY GRAPEFRUIT

Zesty & tart

Mommenpop Ruby Grapefruit starts with organically grown Barbera rosé grapes and gets its tart, refreshing punch from nearly 10,000 pounds of Ruby and Rio Red grapefruits. Grapefruit fans will rejoice at how this flavor tastes just like the fruit itself - bright, tangy, barely-bitter, and prickling with notes of cherry blossom and fresh grapefruit rind. Begging to be spritzed, enjoy Ruby Grapefruit 1:1 with sparkling rosé.

*"It's a joy to drink."
— Wine Enthusiast*

SEVILLE ORANGE

Bright & tangy

Seville Oranges are prized for their peels - rich in aromatic oils, they are the ideal varietal for marmalade. Mommenpop Seville Orange is inspired by this tangy treat - we use the whole citrus, peels and all, to capture the amazing aromas of the skin and the sour juiciness of the flesh. The result is a delightfully tangy, subtly sweet aperitif. Sevilles have a very brief growing season, making this product even more special!

*"...the essence of a fresh
California moment."
— Jancis Robinson*
