SOURCING

We work only with organic ingredients, sourcing locally and from family-run farms whenever possible. We use organic, unwaxed, unstickered blood oranges from Fruit World and tangelos from Barnard Farms to make **MOMMENPOP BLOOD ORANGE**.

PROCESS

MOMMENPOP BLOOD ORANGE is made from a base of Pinot Noir grapes grown at the family-owned Lee Vineyard in Napa/Carneros. Combined with 6,000 lbs of organic blood oranges and select botanicals for added depth, this flavor captures the juicy essence of this unique citrus varietal.

MOMMENPOP SPARKLING ROSÉ is made from Pinot Noir grapes grown along the Pacific Coast in Mendocino County. The grapes have long hang times and are high in acidity, which gives them a citrus-like character, perfect for pairing with our citrus aperitifs. The result is a floral, bright citrus-like character, perfect for pairing with our citrus aperitifs. The result is a floral, bright sparkler with small, fine bubbles.

TASTING NOTES

Mommenpop Blood Orange tastes like pure, juicy blood orange. It takes on added notes of hibiscus, strawberry, and fresh peppercorn when combined with our Sparkling Rosé. Together, the two make for a refreshing, low-ABV spritz that you can sip all day and night.
