

Healing Light Therapy

Stimulating the body's natural healing process

Therapy Flex Pad for Weight Loss and Cellulite Reduction

Light therapy describes the use of red or near-infrared light to stimulate, heal, regenerate, and protect cells that have either been injured, are degenerating, or else are at risk of dying.

This flex pad is very effective for fat reduction and removal of cellulite.

Fat-concentration areas such as hips, abdomen, thighs, and arms can safely, quickly and effectively reduce fat.

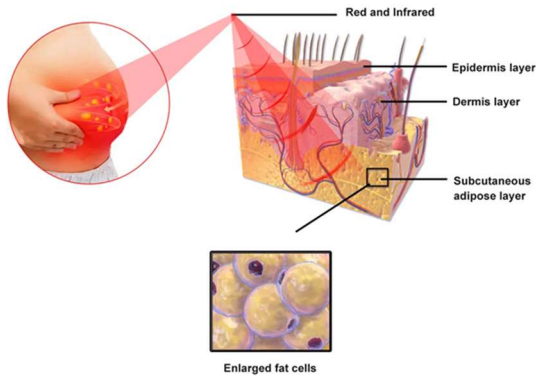

Light therapy is a non-invasive, safe, drug-free, and side-effect free method for weight loss.

Factsheet

Effects of wavelengths:

This flex pad for fat loss and cellulite reduction uses two wavelengths (colors) for optimal benefits:

Red light at 635nm:

This wavelength (color) doesn't penetrate the skin too deep and is excellent for the breakdown of scar tissue and deep fat. It activates the enzyme c oxidase which opens the pores in fat cells so it can be eliminated by the body.

Infrared light at 850nm:

Infrared light is invisible to the human eye and is proven to support calorie burn, increase circulation and ATP, and boost lymphatic drainage for even faster detoxification of the released fats.

Product features:

- 2 LED types: 635nm and 850nm wavelengths (colors) for profound impact on fat loss and eliminating cellulite
- 360 LEDs, each having 3 light chips (1080 light chips in total!)
- Combine the flex pad with our fat loss plan for a more optimal and quicker result
- With PVC cover for hygienic use
- Dimming (brightness control) for intensity setting
- Time control
- Pulse option (10 Hz flicker) for an intensified treatment

Product specifications:

Product size:	20x80cm
Actual power:	50W
Number of LEDs:	360x0.5W (1080 light chips in total!)
Wavelength (color):	635nm; 850nm=2:1
Time control:	Selectable per 5 mins
Material:	Fabric; PVC cover
Other features:	Brightness control
	4 levels: L1-4 (L1 = lowest brightness; L4 = strongest brightness)
	Pulse option: 10Hz flicker

Product detail:

Ordering information:

Article n°	Product description
FLEX001	Flexpad - 20x80cm - 360 LEDs, 3 chips per LED - protective PVC - remote control - 635:850=2:1
