

Healing Light Therapy

Stimulating the body's natural healing process

Therapy Panel for Inflammation and Pain Relief and Immunity Boost

Light therapy describes the use of red or near-infrared light to stimulate, heal, regenerate, and protect cells that have either been injured, are degenerating, or else are at risk of dying. Beyond its application with healing and pain reduction, light therapy can also improve muscular performance and accelerate recovery.

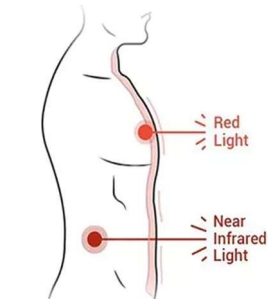

This panel is very effective for providing inflammation and pain relief and boosting people's immunity.

Light therapy is a non-invasive, safe, drug-free, and side-effect free method offering pain relief benefits that work for everyone from athletes to casual exercisers or people with chronic muscle or nerve pain.

Factsheet

Effects of wavelengths:

This therapy device uses 2 different wavelengths (colors):

Red Light at 660nm:

Can be absorbed by the skin in a high proportion. It effectively increases the production of collagen, strengthen the regeneration of cells, promotes blood circulation, and enhances immunity.

Infrared light at 850nm

Infrared light is invisible to the human eye and has a strong ability to penetrate deeper into tissue, organs, and joints to decrease inflammation, enhance cell activity, and speed up metabolism.

660nm:850nm=1:1

Provides ultimate versatility for overall health by delivering an equal percentage of both red light at 660nm and infrared light at 850nm.

Can be used for:

- Muscle and joints pain
- Back and neck pain
- Frozen shoulder
- Tennis or golfer's elbow
- Carpal tunnel pain
- Whiplash injury
- Rheumatoid arthritis
- Osteoarthritis
- Post-surgical pain
- Strains
- Sprains
- Nerve pain
- Wound healing
- Tendinitis
- Diabetic foot ulcers and foot neuropathy
- Fibromyalgia
- Work and workout recovery
- Cervical or lumbar radiculopathy

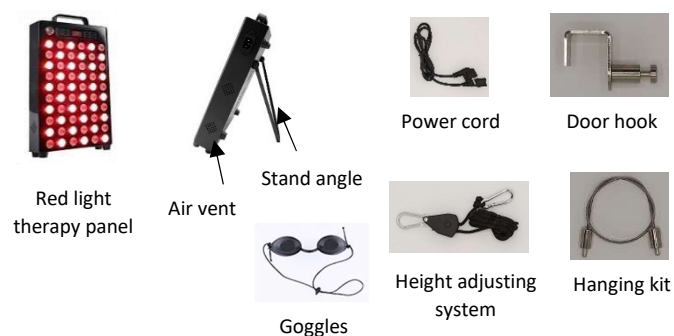

Product features:

- 2 LED types: 660nm and 850nm wavelengths (colors) for profound impact on inflammation & pain relief
- Lightweight and portable so you can take your LED light device with you anywhere
- Time control

Product specifications:

Product size:	36x20x5,5cm
Actual power:	100W
Number of LEDs:	60 LEDs
Wavelength (color):	660nm; 850nm=1:1
Time control:	Time setting from 1 to 30 min.
Material:	Metal housing, black

Product detail:

Ordering information:

Article number	Product description
TBL001	2-color table device – black housing - 100W actual - 60 LEDs – 660:850=1:1
