

Raptor G2

Water Snake Trolling Motor

Each Pod is filled full of high density foam to help prevent water filling pod cavity as well as floatation should you drop your Raptor—Water Snake Unit in the water

Specially designed Pod that fits into the Santa Cruz Raptor Accessory—Drive Hole.

Thumb Screw tensioner for locking steering into one direction for hands free trolling

24 lb Thrust Water Snake Trolling Motor with 2 speeds, high speed and trolling speed. As well as a reverse switch.

Special spacer to protect the prop from banging against bottom of Pod

A large logo for Raptor Kayak Canada. The logo features a yellow and blue stylized kayak shape with the word 'Raptor' in black and 'Kayak Canada' in white. Below the kayak shape is the website 'RaptorKayakCanada.ca' and the address '25 Moore's Lane, Mattawa'. To the right of the kayak shape is a red maple leaf and a black paddle with the text 'PADDLE FASTER I HEAR BANJO MUSIC' and the phone number '705 845-5907'. The entire logo is set against a blue background with white wavy lines.
