Featured Highlights

- Microprocessor-controlled LED light source has the ability to synchronize with the IntelliBrite® 5g LED Pool Lighting for dynamic and synchronized colored light shows
- Provides 5 brilliant fixed colors, 7 dazzling light shows
- Nighttime lighting effects include the ability to hold on a steady color or scroll through a range of available colors.
- Installation is made flush to your deck or other surface; no unsightly or unsafe edges
- Laminar deck lids are available in tan, black, and gray
- The technical principal behind MagicStream Laminars is to remove all turbulence and air bubbles from the water before projecting it through a finely-machined nozzle. The laminar water flow is very non-turbulent, so it keeps its surface tension and flows through the air in a smooth, clean, unbroken stream, instead of spraying apart into droplets.
- Low voltage operation of 12 VAC/16W
- Low flow requirements allow for multiple units per pool
- The perfect complement to IntelliBrite 5g LED Pool Lighting for dynamic and synchronized colored light shows

MagicStream Laminars with 100% synchronization with IntelliBrite 5g LED color and white lights create clear, uniform arcs of moving water that originate from either a pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored, creating a water effect that adds elegant entertainment to your poolscape. It is fully compatible with the IntelliBrite® 5G line of LED pool lights, optional Color Sync Controller and IntelliCenter®, EasyTouch® and IntelliTouch® Automation Systems. Custom program and control light shows using an indoor control panel, wireless remote and the ScreenLogic® Interface using your smart phone, computer or mobile digital device.
