08

### WiFi Operation

#### Download & Registration

- 1 Scan the QR code to download "Smart Life" APP. You can also search "Smart Life" in either APP store or Google Play to install the APP.

- 2 Open the "Smart Life" APP, tap "Register" to register a "Smart Life" account with your phone number or E-mail. Then sign in the APP.

3 Open the "Smart Life" APP, click "add device" or tap "+" on the top right corner of the APP homepage. There are two methods to enter the page of "add device" - Add WiFi manually or search for the devices automatically.

In the homepage of add device manually, choosing any one of product rang to enter a new homepage and ensure the indicator light flash quickly.

The devices provide two configuration methods. In the homepage of Easy mode, tap "Other methods" on the top right corner to enter Easy mode and AP mode, then could choose one of mode to connect with WiFi.

#### Add Devices in Easy Mode(Recommend)

- 1 Make sure your smart device is energized and your mobile phone is connected to your WiFi network. If the WiFi indicator of smart device do not flash, please press the WiFi button for more than 5 seconds until the indicator light keeps flashing quickly, it means the devices is ready for configuration.
- 2 Tap "+" on the top right corner of the APP, select type of service device and click it. When appearing "Add 1 device successfully", it means the connection is completed and your device will be listed in your APP list.

09

#### Add Devices in AP Mode

- 1 If failed in Easy Mode, users could also add devices in AP Mode.
  - 2 Press the WiFi button for more than 5 seconds until the WiFi indicator light begin to flash slowly, it means the device is already for configuration in the AP Mode.
  - 3 Tap "+" on the top right of corner the APP. Select AP mode and tap it. Then tap "Ensure the indicator flash slowly". Then tap "Connect now" to go to the WLAN Settings interface in your mobile phone and select the WiFi network names "SmartLife\_XXXX" to connect it.
  - 4 Return to the "Smart Life" APP, the connection will start automatically.
  - 5 When appears "Add 1 device successfully", it means the connection is completed and your device will be listed in your APP list.
- Now you can control your smart device via your mobile phone APP anytime and anywhere (Make sure your mobile phone and smart device are all connected to the network, and to change the router name into SmartLife XXX ).

#### Configure Amazon Echo

- Open Alexa App, click Alexa
- Click on bottom right corner for Devices
- Click Add Device
- Click on type of device
- Click on "Tuuya"
- Click on Discover Devices
- Wait to find device
- Verify correct device is selected

#### Control Smart Life devices with Alexa voice control phrase:

- Explanation:
- First, say "Alexa" to wake device, you will see the blue LED light lighten up around Alexa. You may use "turn on" to open some device. Use "turn off" to close some device. And lastly, you should say the name of the device you want to control. Try out these phrases ( (Device Name) should be the name of your device):
- Take light bulb as an example by the name of "light" (Device Name)
- 1) ON: "Alexa, turn on light (Device Name)" when you hear response "OK" means control successfully
  - 2) OFF: "Alexa, turn off light (Device Name)"
  - 3) Dimming: "Alexa, set light (Device Name) to 80 percent"
  - 4) "Alexa, dim light (Device Name) to 50 percent"
  - 5) "Alexa, dim light (Device Name) to 100 percent"
  - 6) Color changing: "Alexa, set light (Device Name) to blue"

10

#### Configure Google Home Device:

Make sure your Google Home device is powered on and connected to a Wi-Fi network. Open the Google Home app on your phone. After successful login, tap on the menu in the upper left corner and select "SET UP" to set up Google Home. It will notify you with a sound to ensure that you are connected to correct device. After you hear the sound, tap "YES" to proceed to the next step. You can choose to differentiate the room where Google Home is located from other Google devices. Then, select the Wi-Fi network and language, wait for the system to complete the configuration, and tap "next".

According to the page prompts, choose whether to agree to the corresponding operation. When the page displays "Google Home is ready", select "continue" to continue to the next step. Next is the voice control guide tutorial. Once you're done listening, tap "FINISH SET UP" At this point, Google Home setup is complete.

**Key step - link Action**

On the main page of the Google Home app, tap the sidebar menu in the top left corner and select "Home Control".

Then tap the plus sign in the lower right corner and search for "Smart Life".

Find Smart Life on the list and open it, select the country where your Smart Life app account is located, enter your Smart Life app account and password, and tap "Link Now".

Enter the Smart Life app account and password, then tap "Link Now" to link your Smart Life account. Choose the room where your device is located, and then the skill will appear on the home Control Devices list. Now you can begin your smart home journey.

#### Control Smart Life device with Google Home:

- Now you can control your smart device with Google Home. With the bedroom light as an example, the supported commands include (Google Home currently only supports English commands)
- Ok Google, turn on/off bedroom light. (Turn on/off the light or other device)
  - Ok Google, set bedroom light to 50 percent. (Set the light to any brightness)
  - Ok Google, brighten bedroom light. (Brighten the light)
  - Ok Google, set bedroom light to red. (Set the color of the light, only color changing lights support this function)
