

Installation Guide

IMPORTANT SAFETY INFORMATION

- WARNING : RISK OF SHOCK** House electric current can cause painful shock or serious injury unless handled properly. For your safety, always remember to :
 - A : Turn off the power supply at the fuse or circuit breaker box before you install the fixture.
 - B : Ground the fixture to avoid potential electric shocks and to ensure reliable starting.
 - C : Double-check all connections to be sure they are tight and correct.
 - D : Wear rubber soled shoes and work on a sturdy wooden ladder.
- This fixture is designed for use in a circuit protected by a fuse or circuit breaker. It is also designed to be installed in accordance with local electrical codes. If you are unsure about your wiring, consult a qualified electrician or local electrical inspector, and check your local electrical code.
- WARNING : RISK OF CUTS** Some metal parts in the fixture may have sharp edges. To prevent cuts and scrapes, wear gloves when handling the parts.
- Account for small parts and destroy packing material, as these may be hazardous to children.

Product Specification

Size	Wattage (W)	Voltage (V)	Rated Input Frequency (Hz)	Dimension (DxH)
8 in.	18W	AC120V	50/60Hz	203x14mm
11 in.	24W			280x14mm

Embedded in installation

4" Can

5/6" Can

① Remove trim and existing lamp from recessed fixture;

② Screw E26 socket adapter into socket in the housing;

③ Press the friction blade to insert the lamp into the housing and restore power.

Surface mounting installation

① Fixing bracket on terminal box;

② Connecting the wire;
