LED Step Light with Motion Sensor and Photocell

These contemporary step and wall lights automatically turn ON when they sense darkness with an additional motion-activated feature. And automatically turn OFF during the daytime or when there is no motion detected. There are many locations where you might want to install these lights, along pathways, on stairs, deck, patio, and so on, to name a few. Moreover, they are suitable for both indoor and outdoor spaces. They are not limited to wet locations but can also be installed for indoor stair tread, hallway lighting, and other similar applications. These modern step lights easily fit into a standard rectangular outlet box. They come in both white and black finish.
