

ASSEMBLY INSTRUCTIONS FOR GUINEA PIGS AUSTRALIA'S Indoor 1-Level Ozzy Cage

This is a general assembly guide to building a single level indoor Ozzy Cage, and may not indicate what is included in your box.

These enclosures are suitable for both guinea pigs and rabbits.

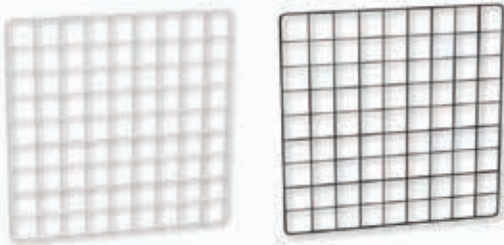

Adjust these instructions to suit your pet's needs.

Using these instructions as a guide, you can build double height walls for rabbits.

These instructions are also suitable for building with our baby guinea pig cage grids.

BASIC AVAILABLE COMPONENTS

GRIDS White or Black

Grids are used to build the walls of the enclosure. Build across and up.

CONNECTORS White or Black

Connectors are used to join the grids at the corners.

CABLE TIES White or Black

Cable ties are used to secure the enclosure at the corners.

CORFLUTE

Corflute is used as the waterproof liner for the bottom of the cage.

Available in pre cut sizes.
Order separately or as a kit.

AVAILABLE COLOURS:

- BLUE
- LIME
- PINK
- PURPLE
- WHITE
- YELLOW
- GREY

SIZES THAT CAN BE BUILT WITH PRE-CUT CORFLUTE

Sizes are in grid lengths
E.g. 2 x 4 (2 grids x 4 grids)

BASE ENCLOSURE

2 x 3 2 x 4
2 x 5 2 x 6

STANDS

2 x 3 2 x 4
2 x 5 2 x 6

Stands are built underneath the base enclosure out of grids and connectors

LOFT EXTENSIONS

2 x 1
2 x 2

Lofts are built on top of base enclosures
