

Wellbeing Clinical Type A Wash Basin

Wellbeing Clinical Type A Basin is a vitrified China basin which is designed to comply with AusHFG Type A. The design provides a perfect mix of commercial strength and practicality with a sophisticated and timeless design, made to the highest standards of quality craftsmanship.

KEY FEATURES

- Designed to comply with AusHFG Type A application and support clinical hand hygiene
- Wide front with deep bowl for splash capture off elbows and hands
- Ergonomic curved frontage
- Slim profile design ideal for contemporary healthcare environments
- Rear waste position with deep draft to ensure rapid water removal
- Fully glazed ceramic basin top and bottom
- Wall fixing directly through ceramic reduces the need for additional support brackets. (Fixing bolts included)
- No tap holes or overflow
- Single piece chrome plated brass waste included
- Optional Shroud available
