

Wellbeing[®] Basin Range

DESIGNED FOR HYGIENE AND CARE

EASY TO CLEAN AND MAINTAIN

ACCESSIBLE, COMPLIANT DESIGN

Clinical Hand Basins – AusHFG-Compliant Solutions for Healthcare and Aged Care

At Enware, we understand that healthcare and aged care environments demand products that meet and exceed the Australasian Health Facility Guidelines (AusHFG). Our solutions are designed with compliance, accessibility, and infection control at their core, ensuring robust performance in high-traffic clinical settings while supporting positive patient care outcomes.

The Wellbeing® Clinical Basin range is purpose-built to deliver superior hygiene, durability, and ease of maintenance. Featuring premium vitreous china construction and smooth, fully glazed surfaces, these basins minimise bacterial growth and simplify cleaning. Combined with ergonomic design for safe and effective hand and forearm washing, they are the ideal choice for healthcare, aged care, and commercial facilities.

Clinical Type A Wash Basin 650mm

Features

- AusHFG Type A compliant basin, designed to support clinical hand hygiene
- Wide front with deep bowl for effective splash capture off elbows and hands
- Ergonomic curved frontage with a slim profile for modern healthcare environments
