Les Paruriers

On **Nadine Alonso's initiative**, LES PARURIERS are the upshot of a long-time dream.

In this place of creation and initiation, which is a workshop as well as a show room, craftsmen who traditionally create behind the scenes are brought to light.

There, limited series body and home jewels are imagined and presented as an evidence of luxury and uniqueness.

Authentic jewels that are a combination of elegance and serenity will seduce the visitors through their original making and the story that each of them tells and the double role that some pieces sometimes play in the shop.

Photograph: Thierry BOUKARABILA

LES PARURIERS, who are extremely luxury-minded, also make it possible for everyone to create their long-dreamt jewels...
