

Grand Canyon Gas Logs' Species & Sizes

JUMBO SERIES & JUMBO SLIMLINE SERIES

Our Jumbo Series matches our massive Jumbo burners with our hefty Jumbo Arizona Weathered Oak Logs. The 1" tines on the burner are a perfect complement to the 12" diameter of the Jumbo Arizona Weathered Oak front log. Big tines and big logs are not all this collection has to offer as massive flames are the final part of this 3 headed beast. Available in sizes 24" - 120" front view and see-through. Jumbo burners have a depth of 21" and the Jumbo Slimline burners are 18" deep.
