

Found in the washes and valleys of the Northern Arizona terrain, much of the character of the natural wood comes from the rainy springs and hot summers causing exotic cracking and wild twisting in the wood. Our log hunters hiked the washes hand-picking each of the logs that make up the Arizona Juniper sets. Take notice of the detail in each one of the logs that feature deep cracking, pitting and natural wood decay only perfected by Mother Nature. Available size 18"- 42" Front View & See Through
