

Technical specification for the quality:

Material	PE monofilament C shaped straight & PP curled (UVStabilised)
Yarn	11,500 dTex
Yarn quality	Environmental friendly, free of lead and cadmium
Primary backing	100% PP cloth, UV stabilised
Secondary backing	Black latex compound with a base of SBR with drainage holes
Water-permeability	60 litre/min/m ²
Pile height	30mm +/- 5%
Face weight	1,320 gr/m ² +/- 10%
Total weight	2,530 gr/m ² +/- 15%
Tuft gauge	3/8 gauge
Stitches per 10cm	17 +/- 5%
Stitches per m ²	17,850 +/- 5%
Colour	4 tone mix of field green & olive green blades + green & beige curled yarn
UV Stability	DIN 53387 ≥ 6000 hrs
Colour fastness	DIN 54004 grade 7 (blue scale)
Roll width	400cm +/- 2cm
Roll length	25m
Applications	Landscaping
Sand infill	6-8kg's per m ²
