You can use the Yoshino app to monitor, control or customize your portable power station. Download at <https://YoshinoPower.com>

## What's in the Box

## 1. Your First Power Up

### 1.1 AC Charging

1800W AC can charge to 80% capacity in approximately 70 minutes.

### 1.2 Car Charging

120W Car Charging can charge to 80% capacity in approximately 18 Hrs.

### 1.3 Solar Charging

SP100(100W) or 200W(200W) Solar Charging can charge to 80% capacity in approximately 4.5 Hrs (Using 3 SP200 Solar Panels).

## 2. Operation

### 2.1 Power Button

Press and hold the main power button for 2 seconds to turn on the product. The LCD screen will light up and the main power indicator will turn pulse white. Press and hold the main power button again for 2 seconds to turn the device off. The word "OFF" will appear on the screen, then the power indicator light and LCD screen will turn off.

### 2.2 App Connectivity

Press and hold the app connection button for 3 seconds until you hear a beep, then the icon will flash until it connects successfully. If the app fails to connect, the icon will go off.

### 2.3 LED Light

Press and hold the LED Light Button for 1.5 seconds until the LED light turns on. Press and hold the button for 1.5 seconds again to turn the LED light off.

### 2.4 AC Output

Press and hold the AC Power Button for 1.5 seconds until the button lights. Press and hold the button for 1.5 seconds again to turn off power to the AC outlets.

### 2.5 USB Output

Press and hold the USB button for 1.5 seconds until the button lights. Press and hold the button for 1.5 seconds again to turn power off to the USB ports.

### 2.6 DC Output

Press and hold the DC power button for 1.5 seconds until the button lights. Press and hold the button for 1.5 seconds again to turn power off to the DC ports.  
**\*Output power total is 126W**
