Safety Precautions

In order to avoid accidental injuries such as electric shock or fire caused by improper use, please read the instruction manual carefully before use and keep it properly for future reference.

WARNING

1. Do not use this appliance near bathtubs showers, basins or other vessels containing water.
2. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or reasoning capabilities, or lack of experience and knowledge only if they have been given supervision or Instruction by a responsible person concerning use of the appliance in a safe way and understand the hazards involved. Cleaning and user maintenance shall not be made by children without supervision.
3. Do not unplug by pulling on the cable. To unplug, grasp the plug, not the cable. The use of an extension cable is not recommended.

4. If the supply cable is damaged it must be replaced or repaired by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
5. Keep away from pacemakers defibrillators, credit cards and electronic storage media.
6. This appliance has a non-self resetting thermal cut-out safety device to prevent overheating. If your appliance cuts out, unplug it from the mains supply socket and leave to cool.
7. When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the appliance is switched off. For additional protection when the appliance is used in a bathroom, it is recommended that a Residual Current Device (RCD), with a residual operating current not exceeding 30 mA is installed in the electrical circuit supplying the bathroom. Contact a qualified electrical installer for advice.
8. Do not handle any part of the plug or appliance with wet hands.

9 . Do not use the appliance for any other purpose than drying hair.

10. Do not allow to be used as a toy. Close attention is necessary when used by or near children. Children should be supervised to ensure that they do not play with the appliance.

11 . Do not stretch the cable or place the cable under strain. Keep the cable away from heated surfaces and do not wrap the cable around the appliance.

12 . Do not use any lubricants , cleaning agents , polishes or air fresheners on any part of the appliance.

13 . Contact the Helpline when a service or repair is required .Do not disassemble the appliance as incorrect reassembly may result in an electric shock or fire.

14 . If the appliance is not working as it should , if it has received a sharp blow , if it has been dropped , damaged, left , outdoors , or dropped into water, do not use and contact the Helpline.

15. In order to avoid a hazard due to inadvertent resetting of the thermal cut-out, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility company, or plugged into any socket where the electrical supply is unstable or likely to be turned off.

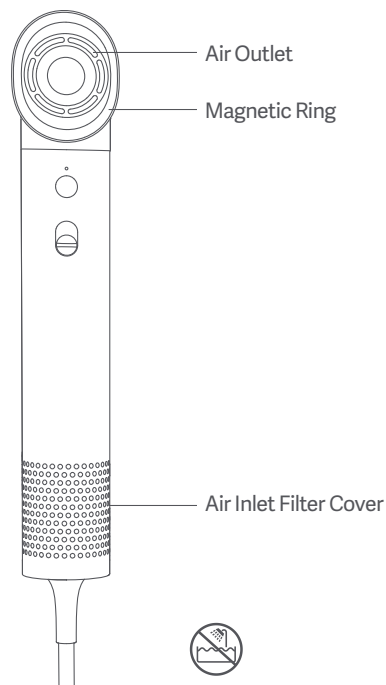

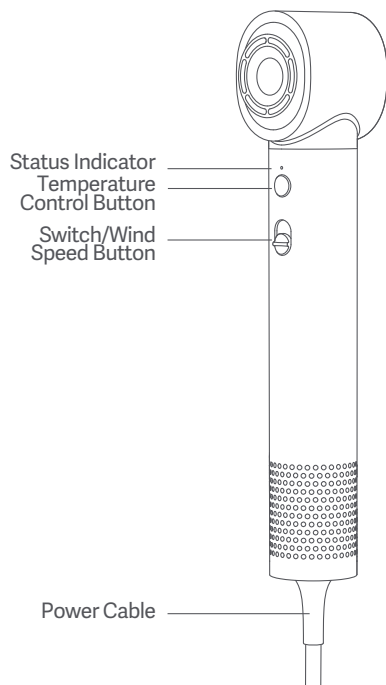

WARNING: Do not use this appliance near water

CAUTION

1. Do not use and store this product under extreme adverse conditions, such as extreme temperatures. It is recommended to use it indoors at an ambient temperature of 0-35°C, please store it in a cool and dry place.
2. Do not wave around the hairdryer or let children play with the hairdryer. etc. (so as not to cause injury or damage to it).
3. Do not drop this product, collide with other objects or apply pressure to this product (so as to avoid fire or electric shock accidents due to failure).
4. The parameters in the manual are only measured in a laboratory environment, and the parameters will be slightly different due to individual product differences.
5. The illustrations of products, accessories, and user interfaces in the manual are all schematic diagrams and are for reference only. Due to product updates and upgrades, the actual product and the schematic diagram may be slightly different, please refer to the actual product.

Oxidised products .

Product performance failure table

Name	Performance failure
High Speed Hair Dryer	Cannot turn on/off under normal use
	The temperature control button does not work under normal use

Terms and conditions of implementation:

To obtain a warranty service, you are requested to return your product to the customer service desk of your retail outlet with your proof of purchase(receipt, invoice,...),the product and its supplied accessories, with its original packaging.

It is important to have the date of purchase ,the model and the serial or IMEI number on hand as information(this information usually appears on the product, the packaging or your proof of purchase).

Failing this, you must return the product with the accessories necessary for its proper operation(power supply, adaptor, etc.).

In the event that your claim is covered by the warranty, the after-sales service may, within the limits of local law, either:

Repair or replace defective parts.

Exchange the returned product with a product that has at least the same functionality and that is equivalent in terms of performance.

Refund the product at the purchase price of the product mentioned on the proof of purchase.

If one of these 3 solutions is used, this does not give rise to the extension or renewal of the warranty period.
